

Seeing Is Not Rebuilding

Stéphane Cuenat

2026-09-28

i In one paragraph. Being intelligent doesn't let us rebuild a complex system just by looking at it. The limit is missing information, not missing intelligence. A far more powerful AI gets closer to that limit, but it hits the same limit.

Introduction

TODO: paste the paper text here. This one file builds both the web page and a two-column PDF (`quarto render` → PDF link appears under “Other formats”).

You can also simply drop an existing PDF next to this file and link it: [Download PDF](#).
